

METZNER TRIATHLON SYSTEM

THE ISSUE

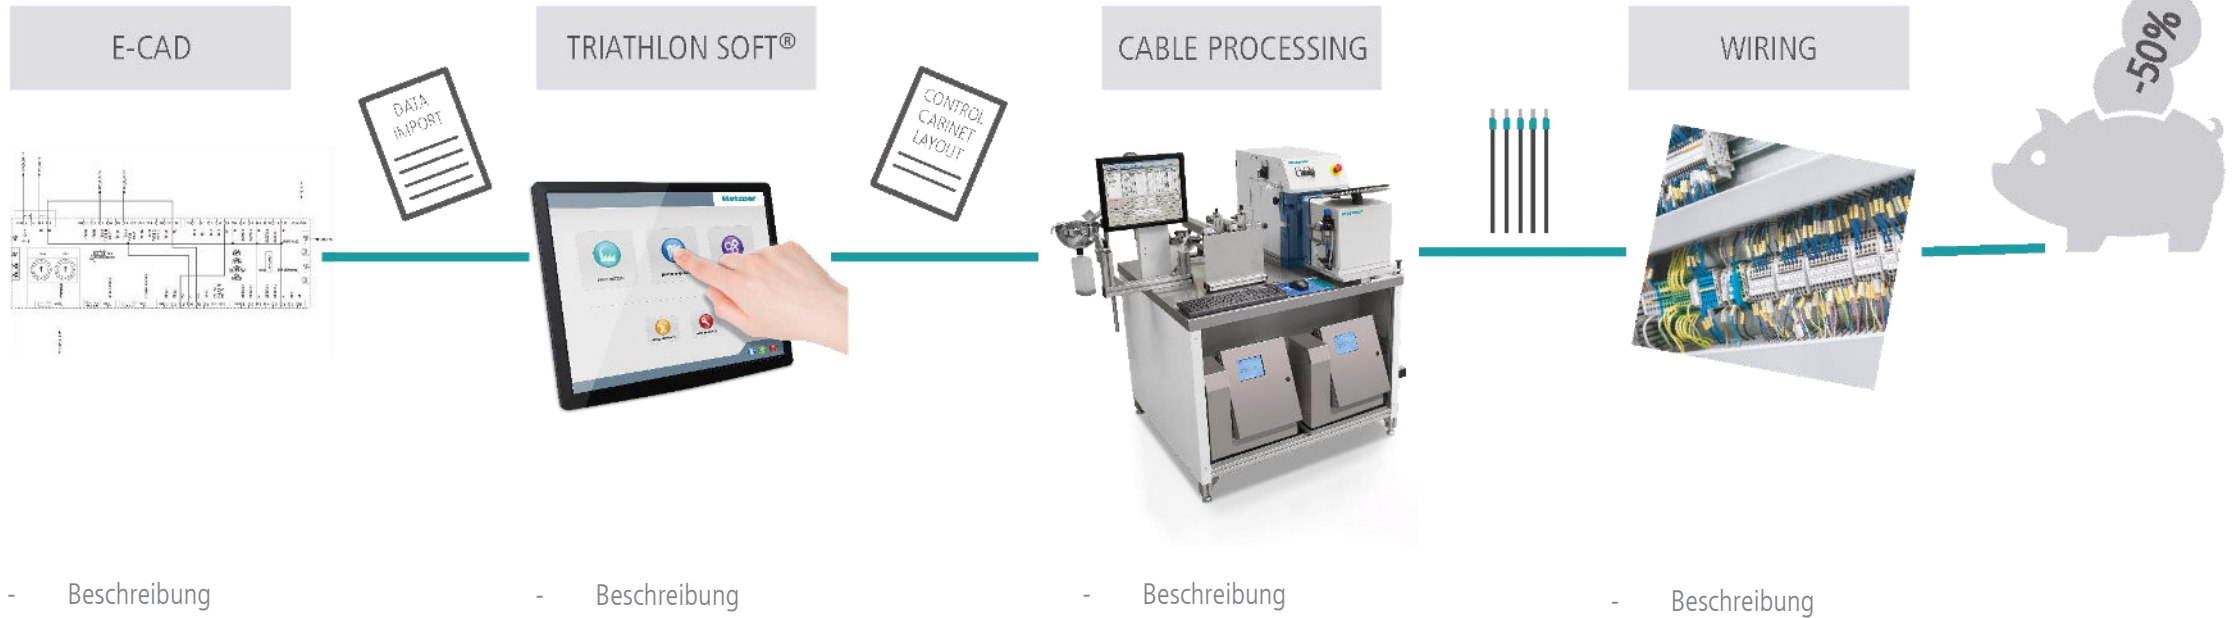

OUR SOLUTION

OUR SOLUTION: METZNER TRIATHLON SYSTEM

Automatic Cut-to-length, crimping and printing

METZNER TRIATHLON SYSTEM

FEATURES

- Precision cut-to-length cutting and single or double-sided stripping
- Crimping of cable ends
- Individual printing of the wires (ink-jet-printing with one or two printers and Brady-Wraptor-printing)
- Pre-sorting of the cables into their component groups

TRIATHLON RANGE

TRIATHLON 2000

- Entry level
- Precision cut-to-length
- Stripping of cables with a cross section from 0.14 mm² up to 6 mm² conductor section
- Crimping of cable ends up to 4 mm²

TRIATHLON 3000

- For all cables used in panel building
- Crimping up to 2.5 mm²
- Cable preparation up to 35 mm² and 15 mm diameter
- Ink-jet or thermal transfer printing

TRIATHLON 3000+

- Most flexible
- Equipped with modular crimping unit
- Quick extension of processing possibilities and maximum cross section available
- Crimping up to 4 mm² or 6 mm² conductor section
